Whitlock was added to our lineup to fill his sire's shoes for performance and maternal strength. Whitlock has surpassed his sire for performance and his daughters are nice uddered heavy milking cows. He is a maternal brother to S Summit 956.

NO CREEP!--The Bulls are raised by good milking mothers on native pasture. They are fed as yearlings with a .25" backfat target. After yearling development the bulls are turned out on grass for the summer. Our bulls are developed to sell as Coming-two-year-olds without compromising Soundness, Fertility, & Longevity!
